

Building The Next Generation Mixer

2014 MOBILE MIXER SPECIFICATION:

STANDARD FEATURES:

- *All Modular Components With Heavy Duty Construction*
- *10 Cubic Yard Divided Aggregate/Sand Hopper (55/45) – 5 Panels, All Individually Removable*
- *100 cubic Foot Cement Bin With Internal Low-Noise Vibrators*
- *500 Gallon Water Tank with Baffles Mounted on Easy fill Internal Filter Hydraulic Tank With 50 Gallon Per Minute, 100 PSI Water Pump “Includes Hydraulically Controlled Fine Water Adjustment”*
- *Adjustable Production Rate Up To 60 Yards Per Hour*
- *Two Admix Tanks Electronically Administered System (One 12-Gallon for High Flow and One 12-Gallon for Low Flow)*
- *24” Wide Chain Driven Conveyor Belt Material Delivery System With Auto Oiler For Chain*
- *Advanced High Energy, 9’ Foot, 12” Diameter Mixing Auger*
- *Sealed Mixer Bearing System For Mixing Auger*
- *Standard Factory Color White Components With Black Conveyor Assembly*
- *Self-Adjusting Conveyor Belt Tensioner*
- *Standard Two Vibrators on Sand Side of Aggregate Bin “Electronic Variable Control”*
- *Standard Two (2), Four (4) Foot Chute*

ADDITIONAL FEATURES WITH OUR STANDARD PACKAGE:

- *Hydraulic Horizontal Left-Right Swivel Control*
- *Twin Cylinder Hydraulic Vertical Lift System*
- *Hydraulic Motor Driven Cement Delivery System (Flowable Fill)*
- *Premium Flat Face “O” Ring Hydraulic Fittings*
- *Quantity Four (4) Rear Working Lights (Including Conveyor Light)*
- *Non-Resettable Counter On Control Panel for Material Monitoring*
- *3-Way Wash Out Valves on Admix System For Easy Flush Out*
- *No Waste Gate Material Stop*
- *All Digital Tack and Flow Meters*
- *Hydraulic Gates*
- *Integral Boot*
- *Rear Ladder With Full Platform and Safety Gate*
